16 June 1964

MEMORANDUM FOR: Assistant for Photographic Analysis
SUBJECT: Readout for Mission 1006-1

I am much impressed with the format, tables, and content of the subject report and request that you so advise your associates at the next PIPB Meeting. I would suggest that you solicit customer opinion regarding the set up of the report. It is hard to envisage additional information which might be reasonably required in a report of this type.
